Academic Experience Style of teaching, courses, ease of access to courses, methods of assessment, teaching support.	Small classes, no more than 50 max Participation very important Frequent assessments throughout semester – midterms, papers, presentations Extensive course choices, not had a problem with getting into a class within the business school. Harder to take classes on main campus
Host International Office Level of support, additional information that could be useful for future students.	Good level of support, easy communication through email or office hours

Accommodation As much information as possible on what accommodation is recommended or not recommended.	Warehouse apartments or shortbread lofts for off campus housing – good if studying away for the year and want to better integrate with American students. On campus usually involves room shares unless in Rams which have some shared apartments, and is very close to the business school but far away from main campus and Franklin street, there is a P2P bus which runs throughout the night though to get between north and south campus.
Destination information and overall experience Transport, travel, social life, integration with local students, student activity groups.	Good bus services for around campus and within the triangle – but very beneficial to know people with cars Close to main airport, so very easy to visit other places further away Beautiful campus all year round and surrounding areas. Great social life – always things happening on main campus, loads of great bars and restaurants, frequent

	special events throughout the year, Greek life very prominent. Basketball is a very big deal from October – April
Describe your year abroad in a sentence!	Couldn't be prouder to have attended such an incredible school. Also, basketball.
